[Trust Framework](#)

Drummond 2016-11-29 18:28:59 UTC #1

In case you are new, the Sovrin Trust Framework Working Group is focused on developing the business, legal, and technical (BLT) rules for operation of the Sovrin distributed identity ledger. These will be compiled into a document called the Sovrin Trust Framework that will serve as the operating contract for Sovrin stewards (the legal entities that operate Sovrin ledger nodes).

See [this Google doc for the Sovrin Trust Framework Working Group Charter and Workplan](#).

See [this Google doc for our Meeting Page](#), where we keep agendas and notes for our weekly webmeetings (currently Tuesdays at 1PM Pacific Time, though that may change as the Working Group grows).

This Working Group is open to public participation. Feel free to post a reply here on this thread if you are interested in becoming involved.

We will try to hold all key discussions in threads here on the Forum under this category. We also have a public Sovrin Slack channel. If you would like an invite, email me at (first name) drummond (dot) (last name) reed (at) sovrin.org.
